Type of Products (GCA):

- Leak Detector 22655-R/28500-S - Leak detector conformance check (unit tested and certified).
- Flowmeter 22656-R - Recalibration, plus any repairs that are needed.
- Methanizer 22650-R/22651-R - Methanizer service (comprehensive evaluation). PLEASE NOTE: Methanizer control and heater assembly MUST be sent together for accurate repair estimate. Each unit will be assessed a \$100 inspection fee.
- Liner Deactivation Custom number - NEW liners only.
- Regulator Repair 575792 - Regulator repair.

Reason for Return:

After receipt of this and the Health and Safety Declaration form, Restek will send a Service Return Authorization form containing your SRV confirmation number. Please affix the return label from the authorization form to your package to assure proper handling or make certain to list your SRV number on the package for reference.
